

Minuties-Delta

```
summary(data[,2:4])
```

```
##           type      delta      d.g
## delta de pouce :17729 delta:35908 droit :24308
## delta propre   :18179 zone :12526 gauche:24126
## zone de controle:12526
```

The data - Disc of diameter 15 mm

These are the minutiaes around the delta for 100 deltas on thumbs with a

R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed      dist
## Min.    : 4.0    Min.    : 2.00
```

```
## 1st Qu.:12.0    1st Qu.: 26.00
## Median :15.0    Median : 36.00
## Mean   :15.4    Mean   : 42.98
## 3rd Qu.:19.0    3rd Qu.: 56.00
## Max.   :25.0    Max.    :120.00
```

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
